

We Show Up

We Bring It

We Do It Right

Protecting Employees at Andover City Hall

The City of Andover approved a new counter and front entry area at their City Hall. Glass barriers were to be installed on their front desk and surrounding areas.

THE CHALLENGE

The Andover City Hall front reception desk was very open and put workers at risk to COVID-19. They wanted to be able to work in a more secure atmosphere and feel safe at work.

OUR SOLUTION

Brin Glass Service was brought in to help in the redesign of the front desk area as well as the Building Permit desk pass through. Brin worked alongside the City of Andover to develop the design of glass barriers for the front desk and surrounding areas.

RESULTS ACCOMPLISHED

Brin Glass Service was able to see this project through from start to finish. They developed the design and provided the glass as well as the installation expertise. The team at Andover City Hall was more than pleased with their new reception area and are now able to feel safe and secure while at work.

Why was Brin Glass best suited for the work?

Brin Glass Service was best suited for the work of this project because they were able to facilitate and deliver solutions throughout the entire scope of the project. Working alongside the City of Andover, Brin was skilled at communicating and understanding the client's needs in order to complete the project quickly.
