

We Show Up

We Bring It

We Do It Right

Osseo Area Schools

Osseo Schools ISD 279 wanted to update the front entrance of Palmer Lake Elementary to make it more user-friendly and safe. As a much-traveled part of the school, it needed to have a clean look with optimal functionality.

THE CHALLENGE

The entry area to the school was outdated and no longer up to code. It needed to be replaced quickly and efficiently, with minimal disruption to classes that were in session.

OUR SOLUTION

Brin Glass Service worked alongside ISD 279's security contractor to replace the old doors that weren't functioning properly. Brin provided the hardware, installation expertise and the glass while the security contractor disconnected and reinstalled the security on the doors once the project was complete.

RESULTS ACCOMPLISHED

Brin was able to not only replace the entrance doors, but make them more energy efficient. The entry system now has a slick look while also serving the practical needs of students and staff.

Why was *Brin Glass* best suited for the work?

Brin Glass Service was best suited for the work because our team had the experience and skills to design and accomplish the best possible solution for a project.
